Sessions-Symposia-Social Events

The Year 2002 Annual Meeting for the Society for Integrative and Comparative Biology (SICB) is an educational and research forum for scientists and students studying the biological sciences. The meeting will include many symposia, workshops and special programs in addition to hundreds of contributed papers in divisional and topical sessions. Watch the SICB Web site at www.sicb.org for Schedule of Events updates and the posting of abstracts after October 31, 2001.

Opening Session

Join us for the Opening Session featuring Robert J. Full, Professor of Integrative Biology, University of California, Berkeley, on Wednesday, January 2, from 8-9 pm. He will speak on "Bipedal bugs, galloping ghosts, and gripping geckos: Bioinspired computer animation, robotics, and adhesives."

As Director of the Poly-P.E.D.A.L. Laboratory, Professor Full has provided biological inspiration for the design of multilegged robots, artificial muscles, and dry adhesives. His talk promises to be a dynamite presentation of how integrative biology can be enlightening and revolutionary in the way we view and utilize nature's secrets. See: <<http://polypedal.berkeley.edu>>.

Special Symposia

In addition to the wide variety of divisional symposia, there will be two Society-wide symposia: "The promise of integrative biology," which will bring five outstanding biologists to the meeting to share their successes in following an integrative approach, and "Comparative Immunology," which will explore a field that belongs in SICB.

Social Events

Attend SICB's social events and use your free drink ticket! All events will take place at the Anaheim Marriott.

Special Events

In addition to the Bartholomew Award/Lecture and the Bern Lecture, there will be a special lecture by Simon Conway Morris on "The Cambrian explosion: What's the problem?" Thursday, 6:30-7:30 pm.

The Public Affairs Committee is sponsoring three events: A Media Workshop on "Communicating Ideas on Evolution to the Media and Public" on Thursday, 1-3 pm, a three-hour hands-on workshop on web-based natural history databases, including AmphibiaWeb and Animal Diversity Web on Friday, 9-12 am (contact: Cynthia Parr <csparra@umich.edu>), and the Evolution Town Meeting on Friday, noon to 1 pm featuring Massimo Pigliucci discussing "Intelligent Design" (see <http://fp.bio.utk.edu/skeptic>).

NSF will again have program officers present to meet with members and discuss funding opportunities. This year NSF program officers will be especially interested in hearing what members think should be supported by NSF; come give them an earfull!
