# Society for Integrative & Comparative Biology Annual Meeting

January 4-8, 2006 – Orlando, Florida

## SYMPOSIUM TOPICS INCLUDE:

1. **SICB-Wide Symposium:** Ecological Immunology: Recent Advances and Applications For Conservation and Public Health. *K. Lee, B. Lutton & M. Wikelski*
2. **SICB-Wide Symposium:** Metamorphosis: A Multi-Kingdom Approach. *A. Heyland, J. Hodin, C. Bishop & L. Moroz*
3. **DNB Symposium:** Recent Developments in Neurobiology. *R. Satterlie*
4. **The Crustacean Society, DCPB, DIZ & DNB Symposium:** Genomic and Proteomic Approaches in Crustacean Biology. *D. Mykles & D. Towle*
5. **DIZ, DEE & American Microscopical Society Symposium:** Integrating Function over Marine Life Cycles. *R. Podolsky & A. Moran*
6. **DEDB & DDCB Symposium:** Movers and Shakers: The Evolution and Development of Mesoderm. *B. Davidson & J. Gerhart*
7. **DCPB, DCE, & DEE Symposium:** EcoPhysiology and Conservation: The Contributions of Energetics. *R. Stevenson*
8. **DCPB, DVM & DNB Symposium:** Biomechanics and Neuromuscular Control. *K. Nishikawa & A. Biewener*
9. **DEDB, DSEB, DVM, DDCB & American Microscopical Society Symposium:** Zebrafish in Comparative Context. *J. Webb & T. Schilling*

at the Buena Vista Palace Resort

The Society for Integrative and Comparative Biology (SICB) is one of the largest and most prestigious professional associations of its kind. Formed through a 1902 merger of two societies, the Central Naturalists and the American Morphological Society, its focus has remained to integrate the many fields of specialization which occur in the broad field of biology. The SICB is organized around ten divisions, each relevant to a major segment of biology. The Society is dedicated to promoting the pursuit and public dissemination of important information relating to biology.
